

THE FINAL DECISION

Third Eurasian Conference and Symposium RISK-2021
“Innovations in Minimization of Natural and Technological Risks”
December 7 – 9, 2021, Tbilisi, GEORGIA

We are the participants of the 3rd Eurasian Conference and Symposium "Innovations in Minimization of Natural and Technological Risks" having discussion and summary international experience of traditional and innovative approaches to the analysis, assessment and management of natural and man-made risks, declare that the main goals of the RISK-2021 conference have been achieved:

- bringing together scientists and specialists in the field of analysis, assessment and management of natural and man-made risks and providing them with the opportunity to exchange information, ideas and innovative solutions;
- promoting the transfer of innovative and advanced knowledge about natural and man-made risks, and technologies for their minimization;
- promoting mutual understanding and professional interaction of scientists, specialists and organizations in order to develop the theory and improve the best practices for minimizing natural and man-made risks;
- deepening cooperation and mutual understanding between industry actors, scientific and academic institutions in the analysis, assessment and management of natural and man-made risks;
- supporting the Sendai (Japan) UN Framework for Action on Disaster Risk Reduction 2015–2030. As a guiding baseline document, reflecting strategic objectives and priority areas for action, as well as expected results on a better understanding of disaster risk in all its aspects;
- identification of the innovative approaches to identify various types of natural and anthropogenic hazards, methods of analyzing and assessing them and methods of making managerial decisions that ensure the safety of the population and sustainable socio-economic development of various regions of the Eurasian continent.

We are the participants of the 3rd Eurasian conference and symposium “Innovations in Minimization Natural and Technological Risks” confirming our commitment to an active position in the formation of national and interstate mechanisms for ensuring the safety of the population and territories. We consider that it is important to involve all stakeholders in the analysis, risk assessment and risk management.

We call for uniting efforts of scientists and specialists from Eurasian countries to increase the efficiency and responsibility of solutions to minimize the risks of natural and anthropogenic emergencies which is expressing the concerning about the scale of losses from accidents and disasters caused by natural and man-made disasters,

We consider the existing of an organic relationship between minimizing the risk of emergencies and sustainable development of the country are important which involve all stakeholders in the analysis, risk assessment and risk management.

Considering the consensus of the conference participants, we express our support for the proposal of the chairman of the conference to hold the next Eurasian conference and symposium RISK-2022 in Baku, Azerbaijan, in mid-2022.

On behalf of the Organizing Committee of RISK-2021 Conference and Symposium,

Acad. Nikolai MAKHUTOV
Prof. Vugar ALIYEV
